

# John's Holiday Snaps

ITSF Budapest 2014

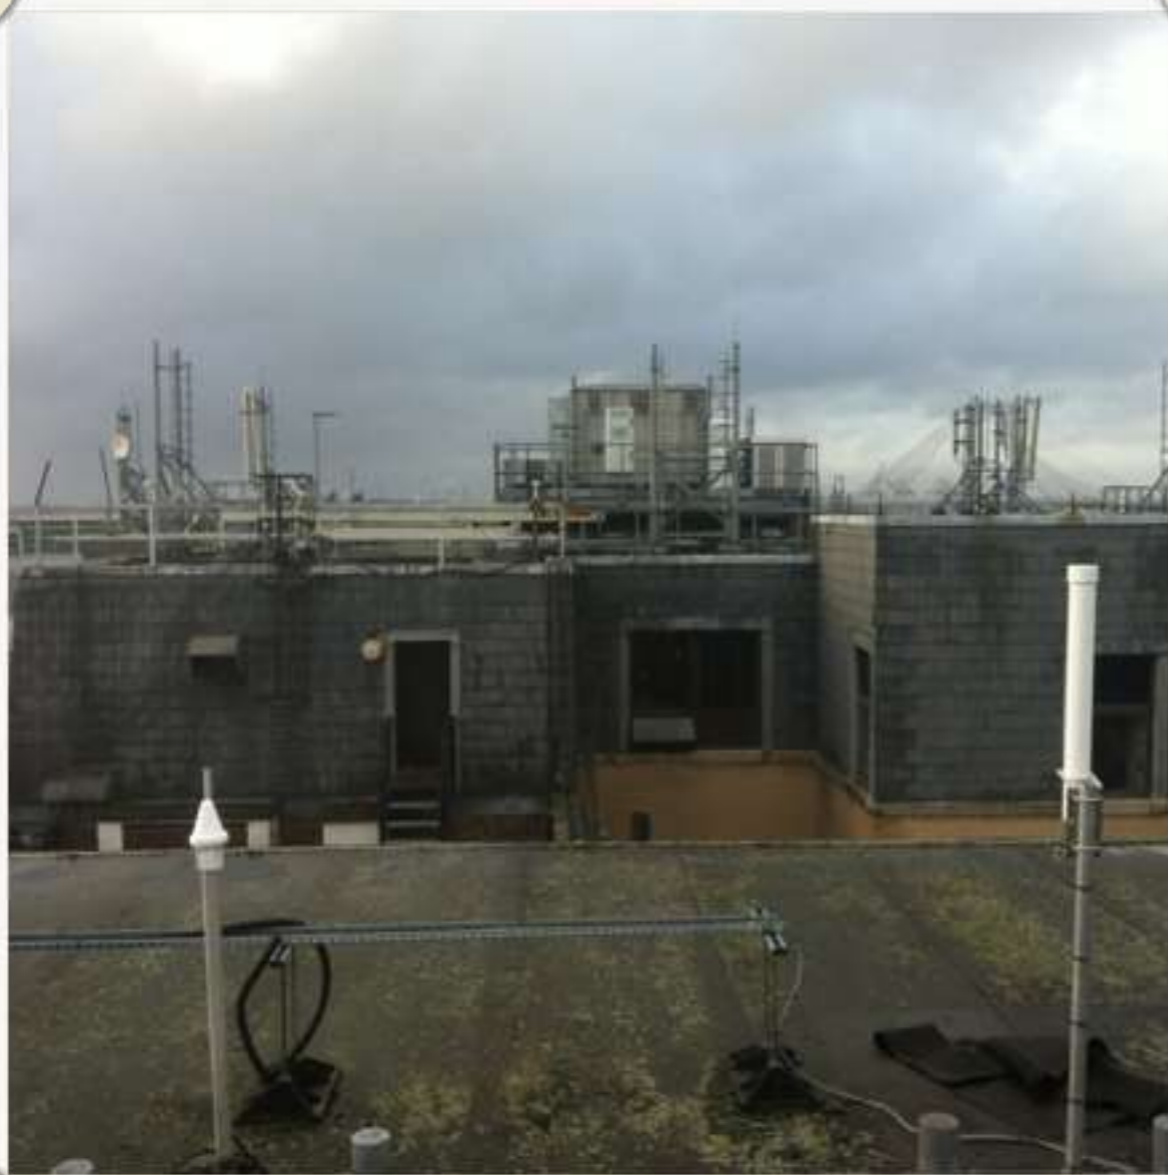

RECONSTRUCTION WAS RESUMED ON JANUARY 1994 AND THE NEW TELECOMMUNICATIONS COMPLEX WAS INAUGURATED ON MARCH 10 1996.

THE TOWER'S HEIGHT IS 372 METER WHICH IS CONSIDERED THE FIFTH HIGHEST FREESTANDING TOWER IN THE WORLD. THE LOWER PART OF THE TOWER IS MADE OF ARMED CONCRETE UP TO THE HEIGHT OF 308 METER WHILE THE UPPER PART IS MADE OF STEEL (THE ANTENNA MAST) TILL THE HEIGHT OF 372 METER.

THE TECHNICAL HEAD OF THE TOWER STARTS FROM THE HEIGHT OF 190 METER UP TO THE HEIGHT OF 210 METER IN A FORM OF 6 FLOORS FOR HOUSING THE TELECOMMUNICATIONS EQUIPMENT AND SERVICES.
